UCSF Newsbreak

From Jazz to Poetry, Black History Month at UCSF

Black History Month will be held on campus in February with a program that will celebrate the diversity of blacks here at UCSF and across the country. Events will run the gamut from jazz to poetry, videos to symposia. The schedule is as follows:

- On Tuesday, February 3, from noon to 1 p.m. in Cole Hall, Rena Merritt Bancroft, PhD, president of San Francisco Community College Centers, will discuss "Living the Dream."
- Folks will have the opportunity to dance to Afro-Latin Jazz music by the Grupo Machete on Friday, February 6, from 4 to 6:30 p.m. in the Millberry Union Gym. Members of this group have been, or presently are, involved with the Pete Escovedo Orchesta, Sabor, Tito Puente, Orchesta Battachanga and Canoneo.
- Berkeley artist Karen McKie will present her handmade dolls on Thursday, February 12, from noon to 1 p.m. in Toland Hall. McKie uses these dolls, representing women of color, as visual aids in her discussions of heroism, dignity and beauty.
- On Tuesday, February 17, from 11 a.m. to 4 p.m., the video entitled "You Got To Move" will be shown continuously in the Medical Sciences lobby. Created by Lucy Massie Phenix and Veronica Selver, this 75-minute video is a documentary depicting people finding within themselves the courage and ability to change injustices in the world—from civil rights and labor organizing to citizens' actions against toxic waste.

Also in the lobby on February 17 will be Cheryl Munson, president of Love, Auntie Cheryl Greetings, Inc., who will be displaying her soft sculpture characters and greeting cards.

- A special three-hour symposium will be held on Friday, February 20, from 1 to 4 p.m. in Toland Hall. Entitled "Black Nurses: Then and Now," the symposium will include:

1 p.m.: Greetings by Jane Hirsch, RN, MS, associate director, Nursing Services; Estrella Manio, RN, MS, chair, Affirmative Action Advisory Committee.

1:10-1:30 p.m.: *History of Blacks in Nursing.* Gerontological clinical nurse specialist Irma Hagans, RN, MS;

1:30-2 p.m.: *Policy & Resources Affecting Minority Health.* Florence Stroud, RN, MN, MPH, deputy director, Community Health Programs, SF Department of Public Health.

2-2:30 p.m.: *Clinical Research by Black Nurses.* Will include "The Importance of Scientific Research in Nursing: Implications for Minorities." UCSF clinical nurse II Charlie Quinn Sessoms, RN, BS; "Human Sexuality & Reproductive Behavior: Perceptions Held by Afro-American Teenagers." Alma Palmer, RN, PhD, visiting postdoctoral fellow, School of Nursing;

2:30-3 p.m.: *Minority Issues & Licensure.* Ruth Ann Terry, RN, MPH, supervising nurse, educator & consultant, CA Board of Registered Nursing;

3:15-4 p.m.: Greetings by Patricia Pothier, professor and acting dean, School of Nursing. Followed by a panel of black administrators, faculty, clinicians & consultants, including SFGH head nurse Alice Bowles, RN, MS; UCSF midwife Nan Bowe, RN, MHS, assistant clinical professor, family health care nursing; nurse consultant Willard Harris, RN, MA; Charlotte Ingram, RN, BSN, MEd, clinical nurse III, LPPI.

Mikkel Aaland

Poet S. Diane Bogus will bring Black History Month to a close at UCSF on Feb. 27

A reception will follow in the School of Nursing, mezzanine level.

- Rounding out the month's events will be a reading by poet and author S. Diane Bogus on Friday, Feburary 27, from noon to 1 p.m. in the Millberry Union lounges. Listed in *Who's Who Among Black Americans*, Bogus is founder and editor-in-chief of WIM Publications.

The Cobb Chorus will perform following Bogus' reading. The chorus was formed five years ago and consists of some 50 pupils, grades 1 to 5 from the Dr. William L. Cobb Elementary School. It is under the direction of Baomi Butts, through the Learning Through Education in the Arts Project.

- Photos showing UCSF black employees and their families, plus dolls from Karen McKie will be on display in the Medical Sciences lobby the entire month.

Black History Month is made possible by the efforts of the UCSF Black History Month Committee. For further information contact the UCSF Women's Resource Center, x65836.

Fire in HSW Lab Prompts Bishop Letter to Press

A small fire broke out in a piece of equipment in one of our research labs in the Hooper Foundation on the 15th floor of HSW at 4 a.m. on January 20. Our automatic sprinkler system and alarm alerted both the campus police, who arrived immediately, and the city Fire Department, who arrived within 10 minutes.

The fire was confined to one bench in a corner of the laboratory. There was minor damage, mostly from water. A tiny amount of isotope (P_{32}) had left traces confined to the work bench in one corner of the laboratory in the amount of 11 microcuries, which is far below the maximum permissible concentration, according to Jack Brown of the State Radiologic Health Branch.

Checking with their Geiger counter, the city Fire Department, and later our own Environmental Health and Safety, detected no signs of contamination and no danger from radioactivity to Fire Department personnel, campus personnel or the general public.

J. Michael Bishop, MD, director of the Hooper Foundation, wrote the following letter to the local press in an attempt to clarify for the public the difference between isotopes and radiation from a major source such as a nuclear plant:

"The small fire which broke out at 4 a.m. on Tuesday morning (January 20) in one of our laboratories at the Hooper Research Foundation, UC-San Francisco, aroused a great deal of needless anxiety about a "radiation release" and other "what if" disasters that could occur.

"Instead, the incident should improve confidence in UCSF's ability to protect itself and its neighbors in the case of an accident or fire. It also dramatizes the fact that the small amounts of radioactive material used in medical research at UCSF and institutions like it pose no threat to the general public. Here are the facts:

"The fire alarm automatically alerted the city Fire Department, who arrived in 10 minutes. Campus police and engineers were already on the scene. The fire was extinguished promptly. Damage to the laboratory was minor and came mostly from water used to extinguish the fire.

"A small amount of radioactive material was present in the equipment that started the fire. A thorough investigation of the fire site by the campus Environmental Health and Safety staff discovered traces of radioactivity confined to the laboratory work bench, but there was no "radiation leak" to the outside. If there had been, the amount of radioactivity involved in this fire was exceedingly small; even if all of it were released into the atmosphere, it would be like putting one drop of dye into the Pacific Ocean. No one inside or outside the building would be endangered. The same could be said of other research with radioactivity performed at UCSF.

"Campus fire investigators and laboratory scientists entered the damaged room soon after the fire was extinguished, without protection and without fear for their own safety. Work in the laboratory has resumed, except in the one area damaged by water, which must be repaired.

"It is important for the public to understand that there is an enormous difference between the use of radioactivity in medical research and the hazards of a nuclear plant or nuclear weapons. The fears aroused by reports of the fire at UCSF in the news media were unwarranted.

"We at UCSF are distressed when even small accidents occur. But the details of the present episode should at least have the beneficial effect of reassuring our neighbors and the general public that our research does not endanger their lives or well-being."

Court Denies Stay, UCSF to Go Ahead with Laurel Heights Renovation

The Appellate Court on January 15 denied a request from the Laurel Heights Improvement Association for a stay to prevent UCSF from continuing its renovation of the UCSF-Laurel Heights campus while their appeal is underway. The neighborhood association had requested the stay—called a "writ of supersedeas"—as part of its campaign to keep the university from moving the School of Pharmacy from the Parnassus campus to the Laurel Heights campus.

The Laurel Heights neighborhood group had lost its previous court battles, in which the association sought to have the UCSF Environmental Impact Report on the Laurel Heights campus renovation declared invalid. The SF Superior Court upheld the EIR as valid in September of last year.

However, the judge asked UCSF to inform the community of routes used for transportation of any hazardous materials to and from the Laurel Heights campus. The campus chose to inform the community by preparing a special transportation EIR.

A public hearing was held on this draft EIR on January 7. As part of the California Environmental Quality Act process, all questions pertaining to the new transportation EIR which were raised at that hearing and in writing up to the deadline of Monday, February 2, 1987 will be reponded to in the final EIR, including any mitigating measures. The final EIR will be presented to the UC Regents for approval.

Meanwhile, on November 19 of last year, the Laurel Heights Neighborhood Association filed a notice of appeal from the SF Superior Court judgment, and in addition, they filed a request for "writ of supersedeas" which, if granted, would have restrained UCSF from proceeding with the project until the appeal was concluded.

This request was denied by the Appellate Court on January 15. The next step is the filing of briefs on the appeal in the Appellate Court.

The British Were Here, the British Were Here

Mikkel Aaland

Daniel Stites (in white coat) explains to British Secretary of State Norman Fowler how the flow cytometer analyzes T cell ratio. To the left of Stites is California Health Director Ken Kizer.

The campus was buzzing with activity on January 20 when some 30 press and media, including 20 reporters from Britian, followed a group of high-ranking British government officials as they toured two AIDS research laboratories on campus.

Besides the British press, local and national stations lugging cameras around included Channels 7, 5, 4, 3, 2, *Cable News Network*, plus the *San Francisco Chronicle*, *Examiner* and three international wire syndicates.

The British delegation was headed by Rt. Hon. Norman Fowler, Secretary of State for Social Services, who is a member of Prime Minister Thatcher's cabinet, and included Sir Donald Acheson, chief medical officer, Department of Health and Social Security. UCSF was the first part of the delegation's California visit to study AIDS.

Hosted by State Health Director Kenneth W. Kizer, MD, MPH, the group was first briefed on all of the AIDS research being conducted at UCSF. Present at the briefing were Senior Vice Chancellor for Academic Affairs David Ramsay; Dean Rudi Schmid, MD, School of Medicine; Merle Sande, MD, professor and vice chair, medicine and chair, UC Systemwide Task Force on AIDS; J. Louise Gerberding, MD, project director, AIDS Health Care Worker Study; John Greenspan, BDS, PhD, professor and chair, oral biology/pathology; Daniel P. Stites, MD, professor and vice chair, laboratory medicine; pediatrician Diane Wara, MD; John Ziegler, MD, director, UCSF AIDS Clinical Research Center.

AHEC Symposium: AIDS Education for Medical Students

Some 20 speakers from medical schools throughout California are meeting at the Los Angeles Hilton on Wednesday, February 11, for a roundtable discussion on "AIDS/Sexually Transmitted Diseases: The Education of Medical Students."

Hosted jointly by the California Area Health Education Center System and the Infectious Diseases Branch of the California State Department of Health Services, this free conference will review the types of training students now are receiving in California medical schools regarding AIDS and other sexually transmitted diseases. Participants will discuss additional programs which are needed to prepare these future health professionals to recognize, treat and prevent these diseases.

Keynote speeches will be by Mary Guinan, MD, of the Centers for Disease Control in Atlanta, and Donald Lyman, MD, director, Office of AIDS, California State Department of Health Services. UCSF speakers will be David Altman, MD, associate dean, School of Medicine; J. Louise Gerberding, MD, project director, AIDS Health Care Worker Study; and Carol Jessop, MD, assistant professor, medicine; director third- and fourth-year medical program.

For further information call AHEC assistant project director Charles Gessert, MD, x64221 or (209) 252-2851.

Shapedown nutritionists Ginny Blak and Loyanne Wilson

Special Classes for Overweight Teens

A series of classes especially designed for overweight teenagers are beginning on campus in early February.

Called "Shapedown," the series focuses on weight management through diet, exercise and behavioral techniques. All teens between 13 and 18 years are eligible to enroll.

The upcoming series will open with a free orientation session on Wednesday, February 4. All interested teens are invited to attend. The series will continue for 13 weeks on Wednesdays from 4 to 6 p.m. in the Ambulatory Care Center.

Preregistration is required for the series, not for the orentation, and there is an enrollment fee which covers the 13 group sessions, workbook materials, and two parent sessions.

According to Lucy Adams, coordinator of the "Shapedown" program, class subjects will include nutrition education, self-assessment, eating environment, hunger awareness, binge eating, and stress management. "Our goal is to put each teen in charge of his or her own weight by changing food and exercise habits and improving self esteem."

The program was developed by Laurel Mellin, assistant clinical professor, medicine.

To register for the new series, call the Adolescent Medicine Unit at x62184.

Live Classical Guitar Feb. 11

It's Wednesday afternoon, February 11, and your day has been hellish. John didn't show up for work *again*, you not only got stuck with the phones all day, but Sarah wanted the grant proposal completed by yesterday, Sam spilled coffee all over your original manuscripts *(the klutz!)* and your favorite restaurant, where you always have lunch every other Wednesday, was closed due to their clever tax evasion techniques.

You really don't feel like going right home after work because you know you'll probably kick the cat and also get into an argument with your two closest friends causing them to hate you for a week. What to do . . . what to do . . .

Why not plunk down $5 ($4 if you're a Millberry Union member) drink some vintage wine, eat some gourmet cheese and listen to some live, beautiful, classical guitar? And all right here on campus!

Classical guitarist and lutenist Stuart Fox will be performing on campus Wednesday, February 11, at the Faculty/Alumni House. A reception will be held at 5 p.m. followed by the concert from 5:45 to 7 p.m.

This Southern California artist is a member of the California Arts Council Touring Program. He will be in residence on our campus the week of February 9 to give informal concerts for Langley Porter and Moffitt/Long Hospitals patients and staff.

The concert is cosponsored by Ashbury Market and supported by the California Arts Council Touring Program, the National Endowment for the Arts and the Sarah B. Childs Chamber Music Fund.

Library Plans at Academic Senate Meeting Feb. 11

All faculty and students are invited to attend the meeting of the Representative Assembly of the Academic Senate, SF Division, Wednesday, February 11, at 4 p.m. in HSW 302. The meeting will include a discussion of preliminary plans for the new library. Anyone interested in attending is encouraged to first examine the library plans, which are posted in the corridor toward the back of the library on the main floor.

A Meeting of the Minds

David Powers

Chancellor Krevans and two-time Pulitzer Prize winner Jon Franklin get a chance to catch up during Franklin's visit to the campus the week of January 12. A former science writer for the Baltimore Evening Sun, *Franklin was the seventh Chancellor's Distinguished Lecturer for the Public Understanding of Science.*

Juggling Teaching, Other Demands Feb. 17

A panel discussion on "Juggling Teaching and Other Demands of Academic Life" will be held on Tuesday, February 17, at 3:30 p.m. in Toland Hall. Open to the entire campus community, the discussion will be especially interesting to faculty, graduate students and postdocs.

Sponsored by the School of Medicine Dean's Office and the Graduate Students' Association, the panel will include faculty members Charlene Harrington, social and behavioral sciences; Henry J. Ralston, III, anatomy; Dean Rudi Schmid; Diane W. Wara, pediatrics. A reception will follow. For further information call x65168.

King Celebration Made Memorable

The campus community was proud to have Lupita Aquino Kashiwahara on campus January 15 as a special guest speaker during the Martin Luther King, Jr. commemoration.

Kashiwahara is Philippine President Corazon Aquino's sister. She is a multi-award winner for TV direction and has the unique distinction of being the first woman in Philippine cinema to receive the "Oscar equivalent" for best director. A Bay Area resident since 1978, she was the media coordinator for the 1986 Philippine presidential election and the US visit of President Aquino.

Following her UCSF visit, Kashiwahara traveled to Atlanta to receive, on behalf of her sister, the Martin Luther King, Jr. Award for "peace and nonviolence." Kashiwahara's visit to UCSF was prompted by an invite from her friend, Lourdes F. Olivares, director of the UCSF Student Health Service.

Medicine Alumni Ski Trip Mar. 7-14

The Alumni-Faculty Association of the School of Medicine is planning a ski trip for all of the school's alumni from March 7-14 in Grindlewald, Switzerland. Interested? Call Joan Rak at Worldwind Travel, 933-4515.

Dental Hygiene Application Extension

The UCSF Dental Hygiene Program has extended its 1987 application deadline to Saturday, February 28. Students interested in applying should by the end of summer 1987 have a minimum of two full years of college level education, including:

- one semester each of general college chemistry and organic chemistry,
- two semesters of general biology,
- two psychology courses,
- one speech course and sociology course,
- one semester each of English composition and English literature,
- additional courses to total 90 transferable quarter units or 60 transferable semester units of undergraduate college level work.

Both the Dental Hygiene Candidate Admission Test (DHCAT) and the UCSF Performance Test are required. Applicants who miss the February 7 deadline for the DHCAT may take both tests on April 11. For further information contact the UCSF Dental Admissions Office, Room S 619, x62737 or x68366.

UCSF *Newsbreak*

UCSF Volume 2, Number 3, January 31-February 13, 1987. Published by the University of California, Third and Parnassus, San Francisco, CA, 23 issues per year—biweekly, except triweekly July, August and December. Application to mail at second-class postage rates is pending at San Francisco, CA. Postmaster send address changes to *UCSF Newsbreak*, News & Public Information Services, University of California, San Francisco, 532 Parnassus, Room 300, San Francisco 94143-0250.

Deadline for the next issue, which will cover February 14-27, will be Tuesday, February 3. Please send campus news copy to Allen Balderson and Medical Center news to Dawn Finch, both at the above address. Last-minute copy can be taken over the telephone by calling x61541 or x62557.

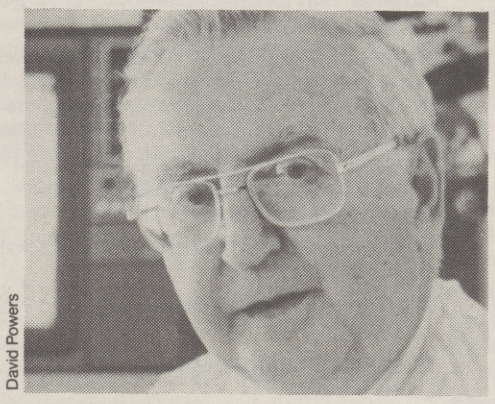
Honors & Awards

EMR Photography

Daniel Ramos, third-year student, School of Dentistry; MS student, oral biology: Awarded the 1987 annual scholarship of the Northern California Chapter of the Achievement Rewards for College Scientists.

Mikkel Aaland

Lourdes F. Olivares, associate clinical professor, medicine; director, Student Health Service. Elected president, Philippine Medical Society of Northern California. She is the first woman to be elected to that position.



David Powers

Irving Philips, professor, psychiatry; director, child & adolescent psychiatry: Honored by the establishment of the Irving Philips Professorship in Child Psychiatry at Columbia University. This endowed chair will be reserved for a Distinguished Scholar in child & adolescent psychiatry who will administer a Child Psychiatry Research Center at Columbia.

Service Awards

Service awards are issued on staff members' tenth anniversaries of employment (or longer, in increments of five years). Names are provided by Personnel as awards are processed. Campus and Medical Center departments should send criteria to Personnel as employees become eligible for service awards.

Oria Cortti, 10 years, ob/gyn

Elaine Gee, 15 years, general medicine

Helen Jackson, 15 years, dialysis center

Paul Kolsanoff, 15 years, EMR

Jane Meier, 10 years, ob/gyn

Joseph Palace, 10 years, clinical lab

Betty Perkins, 25 years, clinical lab

John Smith, 15 years, personnel

Maureen Young, 10 years, nursing service

Promotions

Promotions are made available to this publication after they are processed by the Personnel Department.

Marjorie Bundschuh, clinical laboratory technologist, clinical labs, SFGH.

Angela Carpenter-Bates, administrative assistant II, neurology.

Kim Coleman, principal clerk, ambulatory care center.

James Crabtree, hospital assistant III, neurosurgery.

Vicky Dayan, clinical nurse III, pediatric intensive care unit.

Terry Demoss, billing assistant II, pro fee billing.

Amelia Dizon, (gift administration) assistant II, development services.

Yvonne Hankins, administrative assistant III, neurology.

Christopher Jenkins, public administration analyst, medicine/DGIM.

Bert Jimenez, clinical nurse III, neuro intensive care unit.

Chisato Kobae, hospital unit service coordinator III, operating room.

Mai Ly, (financial planning) assistant III, School Of Pharmacy.

Mildred Ng, administrative analyst, senior vice chancellor/academic affairs.

Evelyn Proctor, associate chief radiologic technician, radiology.

Peter Schumacher, hospital (phlebotomy) assistant II, medicine.

Katherine Wiemelt, administrative assistant II, human & environmental protection committee.

Appointments

Mikkel Aaland

Larry Hanson: Counsel, Labor Relations Department. Prior to coming to UCSF, he was industrial relations manager for Continental Maritime of San Francisco, Inc. He is a former director of employee relations for AMFAC Inc. and former supervisory field examiner for the National Labor Relations Board. As UCSF Labor Relations Counsel, Hanson will represent the campus and Medical Center in unfair practice hearings, serve as primary management advocate in the arbitration process, act as liaison with UC General Counsel on employee-employer relations matters, provide advice and assistance to departments on labor relations matters and serve as Labor Relations Department manager in the absence of Assistant Vice Chancellor Bill Neff.

Paul Bulger: Director of administration, psychiatry and Langley Porter Psychiatric Institute. He comes to LPPI from the UC-Berkeley School of Law where he was financial manager and building and personnel supervisor for four years. Prior to that, he was a budget analyst in the office of the Oakland City manager then a manager in UCSF outpatient services and assistant director of medical records for four years.

Publications

James L. Sorensen, associate professor, psychiatry, **Guillermo Bernal,** assistant professor, psychiatry: Co-authors, *A Family Like Yours: Breaking the Patterns of Drug Abuse* (Harper & Row, San Francisco, 1987).

John Morrow, assistant research immunologist, Cancer Research Institute: Co-author, *Autoimmune Rheumatic Disease* (Blackwell, Oxford, 1987).

Leon McKusick, resident, medicine; director, AIDS Behaviorial Research Project: Editor, *What To Do About AIDS: Physicians & Mental Health Professionals Discuss the Issues* (UC Press, Berkeley, 1986).

In Memoriam

Judy A. Gucinski, legal assistant, Office of Legal Coordination. She attained a BA in Liberal Arts from SF State University in 1980 and did paralegal work before becoming a secretary at the Women's Health Center at SFGH in 1983. She joined the Office of Legal Coordination in 1985 to assist in providing legal services to the UCSF campus.

Nancy Squire Hitch, wife of former UC president Charles J. Hitch. A worker for the War Production Board and the Office of Strategic Services during WW II, she married Dr. Hitch in 1942 and they lived in England after the war. Before becoming UC president in 1968, Dr. Hitch was Assistant Secretary of Defense in the Kennedy and Johnson administrations. While Dr. Hitch was UC president until 1975, Mrs. Hitch was in charge of renovating the Anson Blake estate to serve as official home of the university president. It is used today for receptions.

Donald Duane Baker. A 1956 graduate of the School of Medicine, he initially specialized in pediatrics. In recent years he was joint owner with Dr. Phillip Reiff of the Castro Medical Clinic in San Francisco, a clinic specializing in the care and treatment of AIDS patients.

Walter A. Rohlfing, clinical associate, family & community medicine, UCSF-Fresno. He completed his internship and residency in general surgery at Fresno County General Hospital (now Valley Medical Center). Rohlfing served as administrator and medical director of Fresno General before entering private practice. Until 1983, he also was medical director of San Joaquin Gardens, a long-term care facility which is the site of medical student clerkships.

John W. Swift, assistant clinical professor, pathology. A 1954 graduate of the UC-Berkeley/UCSF Combined Medical Program, he completed an internship at LA County Hospital and returned to UCSF as a resident in 1955. In 1958 he was appointed instructor in pathology and established a private practice through Peninsula Hospital in Burlingame. He was an assistant clinical professor from 1963 until his death.

Wiley E. Jarvis, assistant resident chemist, pharmaceutical chemistry. He received his MD from UCSF in 1984 and joined the School of Pharmacy Computer Graphics Laboratory that same year. He worked on inter- and intra-molecular interaction in biological molecules and was instrumental in work toward developing a model of the acetylcholine receptor.

Nominees Sought for Chancellor's Award for University Service

Chancellor Krevans now is inviting nominations for the Chancellor's Award for Exceptional University Service. Current staff employees who have consistently performed in their UC positions at a level beyond what is ordinarily expected and who have been at the top of their salary range for five years or longer as of July 1, 1986 are eligible for nomination by their supervisors. All office supervisors should now have nomination forms and specific criteria. For further information call Fred McEnroe, Office of the Vice Chancellor—Personnel and Student Services, x65186. Deadline for nominations is Friday, February 6, in the Vice Chancellor's Office, Box 0986.

Six individuals will be chosen to receive the award, which consists of a UCSF medallion and $1,500. The ceremony will be held on Founders Day, April 9.

Systemwide Directories Available Soon

The UC Systemwide Directory soon will be available to members of the campus community. Unfortunately, there are not enough directories for every single employee. So, if your job involves contact with other UC campuses, you feel this directory would be helpful, and you have not yet filled out the proper form, call the Telecommunications Office at x61581.

Contracts & Grants Awarded

Timothy D. Bigby, CVRI, S/M, $64,800, NIH, *Macrophage Lipoxygenase Pathway - Possible Role in Asthma.*

Lester M. Bornheim, pharmacology, S/M, $102,955, PHS National Institute on Drug Abuse, *Cannabidiol: Effect on Cytochrome P-450 Isozymes.*

Frances M. Brodsky, pharmacy, S/P, $10,000, Pharmaceutical Manufacturers Association Fdtn. *Clathrin-mediated Cell Surface Modulation 1987 Research Starter Grant.*

Caroline H. Damsky, stomatology, S/D, $136,018, NIH, *Mouse Blastocyst Epithelialization & Attachment.*

Virginia L. Ernster, epidemiology & international health, S/M, $36,372, Prospect Associates, *Resource on Tobacco Advertising & Promotion.*

Scott L. Friedman, medicine - SFGH, S/M, $103,771, NIH, *The Role of Lipocytes in Hepatic Fibrosis.*

Mitchell S. Golbus, ob/gyn, S/M, $60,000, CA Department of Health Services, *Prenatal Diagnosis of Sickle Cell Anemia.*

John S. Greenspan, stomatology, S/D, $19,830, NIH, *Image Analysis of Oral Epithelial Lesions NIDR Small Grant Program.*

Barry Gumbiner, pharmacology, S/M, $125,583, NIH National Institute of General Medical Sciences, *Molecular Assembly of the Epithelial Occluding Barrier.*

Mark M. Jacobs, LPPI, $20,884, PHS National Institute of Mental Health, *Computed Tomography Study of Schizophrenia.*

31 Saturday

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

ORTHOPEDIC GRAND ROUNDS. Clinical Conference Rm., 3rd Fl., Naval Regional Medical Ctr., Oakland. 8-9 a.m.

PRO RECREATION WORKSHOP: *Swedish Massage.* Coral Cadman. $30 students/MU members, $40 general. MU Madrone Rm. 9:30 a.m.-5 p.m. Call x61800.*

2 Monday

OTOLARYNGOLOGY GRAND ROUNDS: *Diagnosis & Management of Upper Airway Obstruction.* Herbert Dedo, Oto. *Paranasal Sinus Tumors.* Michael Kaplan, Oto. S 214. 8-10 a.m.

HOSPITALS AUXILIARY ART EXHIBIT: On display for the month February in the lobby of Moffitt/Long Hospitals will be watercolors by Valerie Hendrix, oils by Margot Segal, Chinese brush painting by Phyllis Kanter & European color scenery photographs by Mark Schatz. A portion of all proceeds benefits patients at the Medical Center. To purchase or reserve work, visit the Auxiliary Office, M 182, 9 a.m.-4 p.m. or call x64906.

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women now can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 or x62193 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

Feb. 2-6: Embarcardero, on Drumm St. between Sacramento & Clay.

Feb. 9-13: UCSF-Laurel Heights, in the parking lot at 3333 California St.

DERMATOPHARMACY SEMINAR: *Psoriasis.* Louis Dubertret, Derm., Mondor Hosp., Paris. S 940. Noon.

OVEREATERS ANONYMOUS MEETING: N 417. Noon. Call Dolores Phillips, 929-8651.*

LABORATORY MEDICINE CORE CURRICULUM: *Laboratory Diagnosis of Disorders of the Pituitary-Adrenal Axis.* Blake J. Tyrrell, Med. L 535. 2-3:30 p.m.

BIOCHEMISTRY/BIOPHYSICS SPECIAL SEMINAR FEB 2

The Crystal Structure of the Photosynthetic Reaction Center from Rhodopseudomonas viridis. Johann Deisenhofer, Max Planck Inst., Munich. HSW 302. 2 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *Simian Retroviruses & Immunodeficiency.* Murray Gardner, Path., UC-Davis. L 535. 4-5 p.m.

CVRI SEMINAR: *Proton Transport & Epithelial Polarity.* Qais Al-Awqati, Med. & Physio., Columbia. S 1364. 4-5:30 p.m.

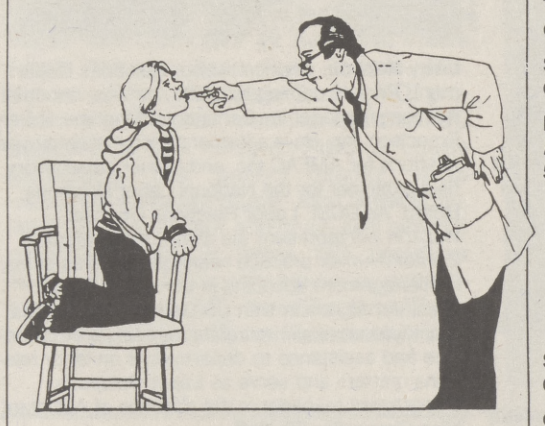
IMMUNOLOGY SEMINAR: *Regulation of Gene Expression During Acute Inflammation.* Georg Fey, Scripps Clinic. HSW 302. 4:30 p.m.

UROLOGY RADIOLOGY CONFERENCE: Emil A. Tanagho, Uro. M 460. 4:30-6 p.m.

3 Tuesday

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th Fl. A. 8 a.m.

ORAL & MAXILLOFACIAL SURGERY GRAND ROUNDS: *Orthognathic Surgery-Historical Considerations.* Thomas Dodson, Oral & Max. Surg. C 701. 8 a.m.



SFGH PEDIATRIC GRAND ROUNDS. Carr Aud., SFGH. 8:30-10 a.m.

NEW EMPLOYEE ORIENTATION: *UCSF Policy, Procedures & Benefits.* Presented every other Tues. All new employees are urged to attend. Toland Hall. 8:30 a.m.-noon. To register call x61645.

OB/GYN GRAND ROUNDS: *Erectile Dysfunction: Its Diagnosis & Treatment.* Tom F. Lue, Uro. S 1364. 9 a.m.

CENTER ON DEAFNESS ROUNDS. President's Conf. Rm., UCSF-Laurel Heights. 10:45 a.m.-noon.

BLACK HISTORY MONTH LECTURE: *Living the Dream.* Rena Merritt Bancroft, president, SF Community College Centers. Cole Hall. Noon-1 p.m. (See page 1 for details.)*

HISTORICAL PERSPECTIVES IN MEDICINE FILM/DISCUSSION SERIES: *The Germ Theory of Disease: Pasteur & Koch.* Film: *A Germ Is Life.* Guenter B. Risse, Hist. & Phil. Hlth. Sci. HSW 302. Noon-1 p.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE: Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

RETIREMENT INFORMATION TALK: General Information on basic & voluntary retirement plans. N 517. Noon.

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1:15-2:30 p.m. $2.*

SFGH GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58, SFGH. 3:30 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Site-Specific Recombination by Gamma-Delta Resolve.* Nigel Grindley, Molec. Biophys. & Biochem., Yale. HSW 301. 4 p.m.

4 Wednesday

HAND SURGERY CONFERENCE. *Compound Hand Injuries.* Robert E. Markison & Issa Eshima, Surg. Conf. Rm. 3, SFGH. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: M 1296. 7:30 a.m. Call Lourdes Saenz, coordinator, x61662.

SFGH ORTHOPEDIC SURGERY STAFF CONFERENCE. Rm. 5K8, SFGH. 7:30-9 a.m.

PSYCHIATRY GRAND ROUNDS: *Mental Health Systems Research & Its Implications for Future Policy.* Boris M. Astrachan, Psychr., Yale. LPPI Aud. 8-9 a.m.

DERMATOLOGY GRAND ROUNDS: *Psoriasis: Physiology & Treatment.* Louis Dubertret, Derm., Mondor Hospital, Paris. HSW 300. 8:10 a.m.

NUCLEAR MEDICINE SEMINAR: *MRI & PET Studies of Irradiated Arterio-venous Malformations.* Peter Valk, Lab. Med., Donner Lab, UCB. L 340. 8:15-9:15 a.m.

PRIMARY CARE LECTURE: *Lower Back Pain & Joint Pain.* Nancy Byl, Phys. Ther. A 455. 10 a.m.-noon.

FACULTY WIVES MEETING: *Mary Cassatt.* Celeste Stewart, docent, de Young Museum. Faculty/Alumni House. Lecture 10:30 a.m. Luncheon noon. Call 921-6646 for further information.

MEDICINE GRAND ROUNDS: *CML: Old Problems, New Directions.* Albert Deisseroth, Med. Cole Hall. 11 a.m.-noon.

AIDS-HIV 1987 UPDATE SEMINAR: Persons with AIDS & ARC Panel Discussion. Cole Hall. Noon.

BROWN BAG TOURS LECTURE SERIES: *Radial Keratotomy.* John A. Stanley, Oph. HSW 302 & live via satellite to SFGH Carr Aud. & CED Commons Rm. Noon. Tapes of all talks available for listening in HSE 345, SIMA unit, UCSF Library. Call x64394.*

WOMEN & SPIRITUALITY MEETING: *Winter Branch.* 1378 3rd Ave. Noon. Call 564-3515.*

UCSF AL-ANON MEETING: For friends & families of alcoholics. C 517. Noon-1 p.m.*

HEAD & NECK TUMOR CONFERENCE. A 732. 1-3 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

SFGH GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2, SFGH. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Interstitial Lung Disease.* Martha Warnock, Path. HSW 508. 5:15-6:15 p.m.

5 Thursday

SFGH NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2, SFGH. 8 a.m.

OPHTHALMOLOGY GRAND ROUNDS: *Cortical Blindness in Children Following Hypoxia.* Scott Lambert, Oph. Preceded by patient exams & discussion: *External Disease.* Chandler Dawson, Oph. S 214. 8:15 a.m.

PEDIATRICS GRAND ROUNDS: *Chromosomal Breakage Disorders.* Steven Schomberg, Ped. *Cough & Fever: Pneumonia?* Charles Gooding, Radiol. & Ped. S 664. 8:30-10 a.m.

SFGH TRAUMA CENTER CONFERENCE. Rm. 4H40, SFGH. 8:30 a.m.

OCCUPATIONAL & ENVIRONMENTAL MEDICINE GRAND ROUNDS: *An Approach to the Diagnosis of Occupational Cancer.* Michael Fishman, Hughes, Lewis & Fishman Assoc. A 405. 8:30-10:30 a.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS. *Pharmacology of Excitatory Amino Acid Antagonists & Their Potential Therapeutic Use.* Brian Meldrum, Neuro., Inst. of Psychr., London. S 664. 11:10 a.m.-12:05 p.m.

HISTORICAL PERSPECTIVES IN MEDICINE FILM/DISCUSSION SERIES: *The Germ Theory of Disease: Pasteur & Koch.* Film: *A Germ Is Life.* Guenter B. Risse, Hist. & Phil. Hlth. Sci. HSW 302. Noon-1 p.m.

AIDS-HIV 1987 UPDATE SEMINAR: *Hemophiliacs & AIDS.* Marion Koerper, Ped. *ARC.* Donald Abrams, Med. & CRI. Cole Hall. Noon.

RADIOBIOLOGY & ENVIRONMENTAL HEALTH SEMINAR: *Differential SCE Induction in Cycling & Noncycling Cells.* Mary Helen Barcellos-Hoff, Cell Bio., LBL. LR 213. Noon.

MEDICAL ETHICS GRAND ROUNDS: *Updating the "Do Not Resuscitate" Policy: Perspectives from Moffitt & SFGH.* Molly Cooke, Med., SFGH; Erick Juengst, Med. Ethics. HSW 303. Noon.

COMBINED HEMATOLOGY/ONCOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

ORTHOPEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

PRIMARY CARE GRAND ROUNDS: *Common Dermatologic Problems,* Richard Odom, Derm. A 455. 4:30 p.m.

UROLOGIC PHYSIOPATHOLOGY CONFERENCE: *Renovascular Hypertension.* Arturo Martines, Uro. M 460. 4:30 p.m.

RADIOLOGY TEACHING CONFERENCE: *Imaging of the Wrist.* Donald L. Resnick, Radiol., UCSD. HSW 303. 5:30-6:30 p.m.

COLE HALL CINEMA: *Stand By Me.* Children under 14 $2, UCSF students & MU members $2.50, general $3. (UCSF employees $2 this showing only.) Cole Hall. 5:45 p.m.*

6 Friday

SFGH MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H4, SFGH. 7-7:30 a.m.

PULMONARY PHYSIOLOGY SEMINAR. L 1361. 8-9:30 a.m.

TRICENTER RADIATION ONCOLOGY CONFERENCE. L 34. 8:10 a.m.

PEDIATRIC CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CLINICAL CONFERENCE OF THE CHILD & ADOLESCENT SERVICE: *Differential Diagnosis & Treatment Planning in the Case of an Adolescent Girl Presenting with Psychiatric & Somatic Symptoms.* Deborah Hickey, Psychr. LPPI Aud. 10:10-11:30 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *The Role of Epidermal Lipids in Skin Barrier Properties.* Russell Potts, Pfizer Research. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Mechanisms of Cytotrophoblast Invasion During Human Placentation.* Susan Fisher, Oral Bio. & Anat. M 1486. Noon.

ORAL BIOLOGY SEMINAR: *Genetic Studies of Periodontopathic Bacteria.* Jeffrey Felton, Stomatol. & Microbiol/Immuno. HSE 332. Noon.

PATHS OF HEALING & WHOLENESS: *In Search of Health.* Michael Volen. N 517. Noon-1 p.m.*

ALCOHOLICS ANONYMOUS MEETING: All are invited. HSE 336. Noon-1 p.m.*

BLACK HISTORY MONTH CONCERT: *Grupo Machete.* Afro-Latin jazz music for dancing. MU Gym. 4-6:30 p.m. (See page 1 for details.)*

UCSF WOMEN'S BASKETBALL CLUB: Open to all campus women. MU Gym. 6-7:30 p.m. Call Mary Newman for details, x63058.

COLE HALL CINEMA: *Stand By Me.* Children under 14 $2, UCSF students & MU members $2.50, general $3. Cole Hall. 6:30 & 8:45 p.m.*

7 Saturday

ORTHOPEDIC SURGERY GRAND ROUNDS. Health Educ. Ctr., Merritt Hosp., Oakland. 8-9 a.m.

ANESTHESIA MORBIDITY/MORTALITY CONFERENCE. HSW 301. 8-10 a.m.

PRO RECREATION WORKSHOP: *Sports Massage.* Robyn Matlock. $20 students/MU members, $25 general. MU Madrone Rm. 9:30 a.m.-5:30 p.m. Call x61800.*

LAUREL HEIGHTS MUSICAL PANORAMA FEB 7

Trio Performance with Denny Zeitlin, Peter Donald & Joel Di Bartolo in a jazz fusion concert. Third in a series of musical events sponsored by UCSF Committee for Arts & Lectures. Tickets $8 general, $7 UCSF faculty & staff, $6 students, seniors, MU members. UCSF-Laurel Heights Auditorium. 8 p.m. Call x62035 for ticket info, x62542 concert info.*

9 Monday

OTOLARYNGOLOGY GRAND ROUNDS: *Surgical Approach to the Skull Base.* Michael Kaplan & Robert Jackler, Oto. S 214. 8-10 a.m.

OVEREATERS ANONYMOUS MEETING: N 417. Noon. Call Dolores Phillips, 929-8651.*

Breast Imaging Update. Fairmont Hotel, SF. Mar. 7-8.

30th Annual Diagnostic Radiology Postgraduate Course. Fairmont Hotel, SF. Mar. 9-13.

Contemporary Trends in Diagnostic Nuclear Medicine. Hyatt Regency, SF. Mar. 14-15.

Ob/Gyn & Abdominal Sonography: Update 1987. Hyatt Union Square, SF. Apr. 10-12.

PERSONAL SAFETY CLASSES

Call x65683 for information & registration.

Women's Self-Defense Workshop. Sat., Jan. 31. 9 a.m.-5 p.m. $10 UCSF affiliate, $30 general.

Six-Week Self-Defense Class for Women. Mon., Feb. 2-Mar. 16. 6:30-9:30 p.m. $25 UCSF affiliate, $40 general.

Tear gas Certification Class. Thurs., Feb. 19. 6-9 p.m. $10.

MEDLINE SEARCH

There still is time to sign up for the next session on the "Basics of Searching MEDLINE," to be held Saturday, March 7 and 14. The sessions cover the basic techniques for searching MEDLINE on the National Library of Medicine's MEDLARS system. Cost is $50 for students and residents, $80 for other campus individuals. Applications are available at the UCSF Library reference desk or administration office, Rm. S 257. For further information call Carol Yates-Imah, Elisabeth Bell or Jim Mackie at x68253 or x62337.

HELP ELIMINATE SCHEDULING CONFLICTS

In order to help the campus avoid conflicts in scheduling important events, the News & Public Information Services Department has a computerized calendar. It is suggested that faculty, students and staff call x61541 when they are planning an event to make sure nothing has been scheduled for that date. Please note that in order to reserve campus conference rooms and auditoriums, it is still necessary to call Millberry Union at x62571, Room Reservations at x64436, Faculty/Alumni House at x64723, Laurel Heights at x68100 or the individual school or department.

Benefits

W-4: May As Well Fill It Out and Get It Over With

If you are among the majority of UCSF employees, one of the first effects of the new tax law you will experience is filling out and turning in a new IRS W-4 form.

Why do you have to do this?

The IRS gives a pretty clear explanation right on the form:

"The Tax Reform Act of 1986 made many changes to the tax law that could affect your taxes for 1987. Therefore, the amount of tax that is now withheld from your pay may no longer be correct. So that your employer will not withhold too much or too little tax from your pay, give your employer a new Form W-4."

The University's version of the 1987 W-4 forms (University of California Employee's Federal/State Withholding Allowance Certificate) is now available in the Storehouse, if not already available in your department. If you haven't received one, ask your office manager.

About 80% of UCSF employees need to fill out the form, according to Phil Ruttenberg, campus payroll manager. These include:

- Employees claiming exempt from federal tax.
- Employees claiming married with three or more exemptions.
- Employees claiming single with two or more exemptions.

Even if your status has not changed in 1987, says Phil, you still have to file a new W-4 if you are included in any of the above categories. And no matter what you *think*, you should review the new form to make sure of your status. The law says you have to get it filed before October 1, 1987. The IRS says, in bold letters on the new form, that you should get it filed as soon as possible in order to avoid incorrect withholding during the interim.

Phil adds to this that if you neglect to file, your status automatically will be changed to either married with two exemptions or single with one, effective with your October 1987 earnings.

For some people, completing the form will be a simple matter of entering some easily computed exemptions: one for yourself, one under the "special allowance," one for your non-working spouse if you have one, and however many dependents you expect to have. For this group, the task will take about two minutes.

However, if you have a total income of $950 or more from a working spouse, more than one job or a non-wage income; or if you expect to have itemized deductions, tax credits, adjustments to your income, or deductions for age or blindness, then you need to figure any or all of these things in, according to which apply. To help you out, a worksheet and instructions are attached to the form. An accountant, unfortunately, is not.

If all else fails, there is an 800 number you can call for help, or for additional publications, such as Publication 919, "Is My Withholding Correct?." The number to call is 800-424-FORM (3676).

How are the Funds Performing?

For those invested in the additional savings programs, here are the latest unit values and monthly factors (as of December 31):

- *Accumulation Unit Values*
  Equity Fund: $43.823
  Bond Fund: $31.405
- *Monthly Factors*
  Savings Fund: .007491 (9.37%)*
  Money Market Fund: .005254 (6.49%)*
  GIC Fund: .008355 (10.50%)*

*These percentages represent the most recent returns expressed as an annualized rate. The money market and savings rates change monthly.

Questions, call x61400.

Jobs

The Personnel Department, located at 1350 Seventh Avenue, is open to receive applications every weekday from 8 a.m. to 5 p.m. with extended hours on Wednesdays, 8 a.m. to 6:30 p.m. Details of jobs listed below are available in the UCSF Employment Opportunities flyers. Copies are distributed campuswide and also are posted at the Personnel Office and in the main lobby of Moffitt Hospital.

Key:

UNION CODES:	CX - Clerical and Allied Services
AFSCME	EX - Patient Care Technical
	SX - Service
CNA	NX - Registered Nurses

Administrative/ Professional

Management Services Officer III. Physical Plant: Building Services Management. #V-B28048. $2,867-$3,797. Filing Deadline: 2/18/87.

Principal Administrative Analyst I. Utilization Review. #H-P47184. $2,856-$3,448. Filing Deadline: Open Until Filled.

Programmer/Analyst II. Biochemistry. #M-L46468. $2,547-$3,073. Filing Deadline: 1/28/87.

Administrative Assistant III - Supervisory. Medicine/ Cardiology. #M-C48060. $2,018-$2,427. Filing Deadline: 2/11/87.

Administrative Assistant III - Supervisory. Urology. #M-F43256. $2,018-$2,427. Filing Deadline: 2/11/87.

Clerical and Allied Services

Administrative Assistant III (CX). Office of Research Affairs - Laurel Heights. #V-H47476. $2,010-$2,416. Filing Deadline: 2/4/87.

Administrative Assistant II (CX). Pharmaceutical Chemistry. #V-S46118. $1,766-$2,108. Filing Deadline: 2/3/87.

Senior Admitting Worker (CX). ACC:Registration. #H-A43869. $1,587-$1,880. Filing Deadline: Open Until Filled.

Gift Administration Assistant I (CX). Development Services. #V-S51192/93/94. $1,556-$1,843. Filing Deadline: Open Until Filled.

Senior Word Processing Specialist (CX). Urology. #M-F43257. $1,556-$1,843. Filing Deadline: Open Until Filled.

Senior Typist Clerk A (CX). Epidemiology and International Health. #M-F45955. $1,367-$1,587. Filing Deadline: Open Until Filled.

Survey Worker (CX). LPPI - 7th Avenue. #V-W43652. $7.86-$9.12/Hr. Filing Deadline: Open Until Filled.

Clerk (CX). School of Pharmacy:Purchasing Unit. #V-S52311. $7.05-$8.13/Hr. Filing Deadline: Open Until Filled.

Health Care and Allied Services

Psychologist II. LPPI:Research. #V-W51007. $2,999-$3,620. Filing Deadline: Open Until Filled.

Clinical Lab Technologist Specialist. Clinical Labs: Immunology. #H-C45825. $2,751-$3,316. Filing Deadline: 2/4/87.

Clinical Nurse II. General Clinical Research Center - SFGH. #M-F51905. $2,505-$2,905. Filing Deadline: Open Until Filled.

Senior Radiologic Technologist (EX). Radiology. #H-P48475. $2,313-$2,785. Filing Deadline: 2/4/87.

Clinical Social Worker I. Psychiatry - 755 S. Van Ness. #V-W26286. $2,231-$2,686. Filing Deadline: 2/4/87.

Hospital Anesthesia Assistant II. Anesthesia. #H-A52491. $1,702-$2,032. Filing Deadline: 2/4/87.

Sciences, Laboratory and Allied Services

Staff Research Associate II. Medicine - SFGH. #M-CX5085. $2,070-$2,490. Filing Deadline: 2/4/87.

Staff Research Associate II. Pharmaceutical Chemistry. #V-S52313. $2,070-$2,490. Filing Deadline: 2/3/87.

Staff Research Associate II. Pharmacology. #V-S40931. $2,070-$2,490. Filing Deadline: Open Until Filled.

Staff Research Associate I/II. LPPI:Research. #V-W51027. $1,811-$2,169 Or $2,070-$2,490. Filing Deadline: 2/4/87.

Staff Research Associate I. Lab. Medicine. #M-L50013. $1,811-$2,169. Filing Deadline: Open Until Filled.

Staff Research Associate I. Neurology - SFGH. #M-C49005. $1,811-$2,169. Filing Deadline: 2/4/87.

Staff Research Associate I. Radiation Oncology - CED. #H-P52015. $1,811-$2,169. Filing Deadline: 2/4/87.

A Floating MSO?

A new permanent position has been created on campus—a floating MSO. The new person will report to the Vice Chancellor—Personnel and Student Services and will serve as a key administrator for academic and administrative departments who are in need of short-term assistance during absence of their MSO or analyst due to illness, personal leaves, etc. Exact classification of this new position will depend on the individual's education and experience.

Linen Preparation and Distribution

Linen Service Supervisor. Laundry Services. #H-C50336. $1,976-$2,375. Filing Deadline: 2/11/87.

Food Preparation and Distribution - Supervisors and Workers

Senior Food Service Supervisor. Nutrition and Dietetics. #H-C49072. $1,852-$2,117. Filing Deadline: 2/11/87.

Parking Operations

Hospital Parking Operations Aid/Parking Assistant (SX). Parking Operations. #V-S50813. $8.00-$9.39/Hr. Or $6.69-$7.71/Hr. Filing Deadline: Open Until Filled.

Academic

The Senior Vice Chancellor - Academic Affairs distributes an Academic Employment Opportunities bulletin on a monthly basis to all UCSF departments. You may obtain a complete description of open academic positions from Academic Services, Room U 162, UCSF. Positions are located on the Parnassus campus unless otherwise noted.

Assistant Research Molecular Biologist. Laboratory Medicine. #M-714. Open until filled.

Assistant Professor in Residence. Anesthesia. #M-717 (a) through (h) (8 positions). Open until filled.

Assistant/Associate/Full Professor in Residence. Pediatric Intensive Care. #M-718. Open until filled.

Assistant Clinical Professor. AIDS Clinic. #M-719. Open until filled.

Assistant Professor in Residence. CT/Ultrasound/ GI-Radiology. #M-720. Open until filled.

Associate/Full Professor or Associate/Full Professor in Residence. Cardiothoracic Surgery Service. #M-721. Filing Deadline: 2/28/87.

Assistant/Associate/Full Professor. Otolaryngology. #M-722. Filing Deadline: 2/15/87.

Associate/Full Professor. Rheumatology. #M-723. Open until Filled.

Assistant Research Anatomist. Pulmonary Research Laboratory, CVRI. #M-000. Open until filled.

Inpatient Nursing

For more information on the following positions, call nurse recruiter Lynda Purves, x62252.

Clinical Nurse IV. Diabetes. $3045-3675/mo.

Clinical Nurse IV. Neonatology. $3045-3675/mo.

Clinical Nurse IV. Adult Critical Care. $3045-3675/mo.

Clinical Nurse IV. Neonatal ICU. $3045-3675/mo.

Administrative Nurse III. Patient Transport Coordinator. $3045-3675/mo.

Clinical Nurse II. Acute Medicine. $14.51-16.70/hr.

Clinical Nurse II. Neurosurgery/Neurology. $14.51-16.70/hr.

Clinical Nurse II. Cardiothoracic/Vascular/Eye Surgery. $14.51-16.70/hr.

Clinical Nurse II. Pediatric Intensive Care Unit. $14.51-16.70/hr.

Clinical Nurse II. Intensive Care Nursery. $14.51-16.70/hr.

Clinical Nurse II. Neurosurgery. $14.51-16.70/hr.

Clinical Nurse II. Gyn/Urol/ENT Surgery. $14.51-16.70/hr.

Clinical Nurse II. Oncology. $14.51-16.70/hr.

Clinical Nurse II. Intensive Care Unit. $14.51-16.70/hr.

Clinical Nurse II. General Surgery. $14.51-16.70/hr.

Clinical Nurse II. Medical/Cardiology. $14.51-16.70/hr.

Clinical Nurse II. Neuro ICU. $14.51-16.70/hr.

Clinical Nurse II. Neonatal ICU. $14.51-16.70/hr.

Clinical Nurse II. Postpartum Labor & Delivery. $14.51-16.70/hr.

Clinical Nurse II. Critical Care Float Unit—Adult. $14.51-16.70/hr.

Clinical Nurse II. Cardiovascular Special Care Unit. $14.51-16.70/hr.

Clinical Nurse II. Perinatal Outreach Coordinator-OB. 50% $14.51-16.70/hr.

Clinical Nurse II. Perinatal Outreach Coordinator-Neonatal. 50% $14.51-16.70/hr.

Psychiatric Inpatient Nursing

For more information on the following positions, call LPPI Director of Nursing Marilyn Rajokovich, x67361.

Clinical Nurse III. Psychiatric ICU. $2568-3097/mo.

Clinical Nurse III. Children's Inpatient Unit. $2568-3097/mo.

Clinical Nurse III. Behavioral & Neuro Science. $2568-3097/mo.

Hospital Psychiatric Nursing Assistant I. Behavioral & Neuro. Science. $1531-1831/mo.

Medsounds Continued

Task Force Wrap-Up Right Here

Congratulations! After you read Director Bill Kerr's responses to the recommendations made by the Food Services and CED Task Forces — both in this issue —you will have completed the whole task force response series.

If you missed the reports in the last two issues of *Medsounds* — which included the responses to the Employee Recognition, Recreation and Parking/Transportation recommendations — you're not totally out of luck. Copies of Bill's complete letters of response to each of the five task forces are available in your department.

Now that this series is complete, it's not supposed to mean the end of the news on the subject. The actions taken in response to the recommendations are in various stages of implementation. The intent is to keep you posted as further activity develops.

CED Task Force Grows Some Roots

The CED Task Force has recognized the value of having a body of representatives acting as an advocate for all the employees in the building. They've elected to remain intact, rename themselves the CED Staff Services Committee (known as CED Committee throughout the rest of this article), and to invite CED campus departments beyond the Med Center areas to join in.

They'll be working on improving all aspects of working conditions at CED, from identifying the problems to helping solve them. The task force already has identified a numbers of issues, presented them to Bill Kerr, received his responses — and are now standing by to monitor progress and help push through resolutions wherever possible.

There is an extra hitch when it comes to resolving CED problems, however: The CED building is a condominium in which we own a 49% share. For most issues we must work with Far West Labs, the 51% owner, through the CED Condominium Management Committee — and with the building manager, who is employed by Far West Labs. Sometimes the arrangement tends to stall or even squelch certain actions. In any case, nothing ventured, nothing gained. The following are Bill's responses to the initial ventures suggested by the task force:

Parking

- Can CED parking permits be extended to the Parnassus campus? This won't work because of limited garage space; however, if you drive your own car to Parnassus for Med Center business you are eligible for a special permit. Check with your supervisor.
- Do all CED permit holders really have CED as their primary work site? And what is the policy for visitors? Yes to the former, according to a recent audit by Campus Parking Operations. And as far as visitor parking, the general policy is that visitor parking may be arranged, if space is available, by contacting the building manager a day ahead. Random parking by visitors, including vendors, could result in the vehicle being towed.
- Would it be possible for a personal safety officer to roam the CED parking lot from 9 a.m. to 3 p.m. to discourage break-ins and unauthorized cars? The building manager has rejected this proposal on the grounds that monitoring the cars coming into the lot during that time period is more important and that the lot is monitored by closed circuit TV. Bill encourages the CED Committee to keep track of any incidents that take place and present them to the Condominium Management Committee.
- Would a new layout of the parking lot provide more spaces? Five possible alternative layouts were studied. All resulted in fewer parking places.
- What can be done to remove abandoned cars near CED? Campus Police are negotiating with the SFPD to see what action it can take. Meanwhile, nothing can happen until the City finds storage space for the cars.
- What about the parking lot at 17th and Folsom? When the new lease is complete, Campus Parking Operations will consult CED employees on plans for improvement.
- Is it possible to install bicycle locking facilities? Campus Transportation has obtained agreement from the building manager to do so. The location and equipment will be reviewed with the CED Committee.
- Are copies of the waiting list for the CED lot available to employees? Yes, upon request to Campus Parking Operations.

Food Service

- Can existing services be improved? The microwave in the Commons has been replaced and a second is being purchased. Further, the CED Committee has been asked to talk to the Condominium Committee about daily service of the vending machines.
- What about actual food service in the building? The building manager has arranged for limited food service on the first floor and the vendor is now seeking city approval. The campus still will be seeking other options.

Environmental Improvements/ Safety

- What can be done to improve the ventilation? Renovations to improve the air circulation system, which will include repairing loose ceiling material, are expected to begin in May.
- Can the cleanliness of the building be improved? The building manager has contacted the outside cleaning service about the problem. Committee members are urged to collect specific complaints and present them to the building manager.
- What about stairs and/or improved elevator service? The building code will not allow extension of internal stairways to the ground floor, but the Condominium Committee is looking into providing additional elevator service as the building becomes fully occupied.

Employee Amenities

- What do the plans for the forthcoming CED renovations include in the way of staff lounges? The lobby and the third floor commons will be refurbished, and new lounges will be added on the second and fourth floors. The second floor lounge will be a "quiet" lounge, with space for employees to lie down. The anticipated start date is May, 1987; finish date, May, 1988.

In conjunction with the lounge issue, the CED Committee has been asked to look at whether and where additional bulletin boards should be added.

Also, plants have been added outside and tables and additional benches are expected to be installed in March.

- Can physical fitness facilities be included in the forthcoming renovations? Bill is working with Vice Chancellors Tom Rolinson and Thena Trygstad on this, and expects to have information for the CED Committee by March 1.
- What about an ATM at CED? At this point, each of the several banks contacted has not considered the service feasible.

Campus Activities/ Communication

- How can we get CED included in the planning for campus activities? For starters, Bill represented CED interests at a recent meeting of the Campus External Relations Group. It was resolved that the office of Thena Trygstad, vice chancellor for Personnel and Student Services, will take the responsibility for seeing that CED needs are considered in campus decisions.

Some of the specific activities mentioned by the task force as being appropriate for CED already have taken place: The recent presentations on Props 56 and 61, open enrollment sessions, and live video transmission of the Brown Bag lecture series.

- How can we bridge the gap between the CED Committee and the building management? The CED Committee will be meeting on a regular basis with the three UCSF representatives on the Condominium Committee (1) to be briefed on building management issues, and (2) to bring pertinent issues to the attention of building management.

Dawn Finch

Taking the situation in hand: CED Task Force-turned-CED Staff Services Committee members (counterclockwise, starting at left) Ron Schumacher, Ken Hobbs, Karen Jolliffe, Joy Becker, Julie MacMillan, Joanne LaCasse Gardner, Gail Harden, Terry Johnson, Rene Padilla, and Marcellus Martin (chair). Not in the photo are committee members Paul Gofigan, Al Naklowycz and Edie Roberts.

Food! Everyone Has an Opinion on The Subject

The members of the Food Services Task Force, to their credit, judiciously tempered their personal opinions on the subject with input from the Employee Opinion Survey, the Creating a Perceptible Difference Sessions and the major survey conducted by the Nutrition and Dietetics department last summer. A number of the recommendations they produced are associated with the forthcoming renovation of the Moffitt cafeterias, which hopefully will begin late this year. As you will see in Bill Kerr's following responses, in some cases it appears feasible to make some interim improvements; in other cases it seems more logical to incorporate the improvements at the time of renovation.

Nighttime Food Service

Within the next couple of months, a one-year pilot program offering a limited menu food service during a portion of both the evening and night shifts will begin.

Menu Improvements

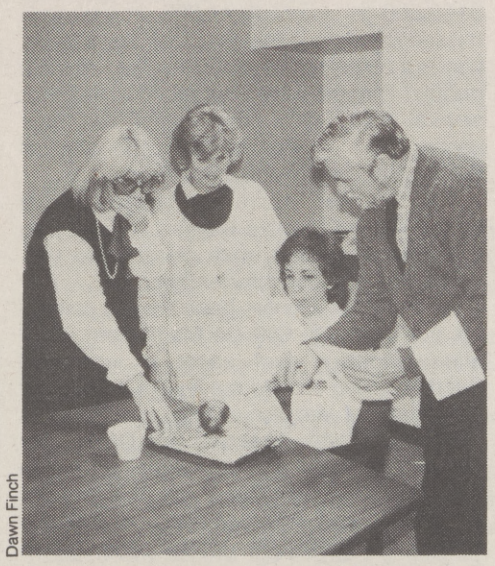
Based on the recent survey and the task force recommendations, menu changes — with emphasis on low fat dishes, more salads and vegetarian selections — already are being made. When the renovations have been completed, the cafeteria will feature a number of different "stations," offering made-to-order sandwiches, a large salad bar, a fresh fruit bar, an improved selection of entrees, grilled and deep-fried items, pizza, and a deli.

Holiday Meal Discount

The Med Center has never found it appropriate for patient fees to subsidize employee or visitor meals. Thus, budgetary constraints make it impossible for a discounted holiday meal program at this time. However, the campus holiday party and the champagne breakfast provide an opportunity for all employees to eat, drink and be merry.

Begin Renovation Earlier

The management decision to remodel the cafeterias was made many, many months ago. At that point we entered into a long and complicated process of university and state requirements and approvals. Currently we are at the stage of working on the drawings and criteria for the State Seismic Review Board. Their review takes up to six months. After all the approvals are in, then the bidding and awarding of the construction contract can take place. Based on this schedule, the earliest the construction could begin would be next November. From that point, the renovation is expected to take about a year.



Dawn Finch

Make of this picture what you will, but don't blame it on Food Services Task Force members (left to right) Duffy Price, Georgia Lucas, Susan Janvrin (chair) or Bert Callen. The particular pose wasn't their idea! Task Force members who were fortunate enough to miss the photo session include Mary Benvenuti, Mike Mahlmeister, Gloria Romero, Anita Walker and Hardy White.

Interim Redecoration

Bill has okayed some remedial cosmetic redecoration of the SF Room until the total remodeling takes place, but feels it wise to wait until the new decor is planned for the purchase of new chairs and tables.

Stepped-up Publicity

Medsounds, Construction Alerts, and other publicity vehicles will be used to keep employees informed about the renovation and construction.

Separate Area for Physicians

After discussing it with the faculty, Bill finds it necessary to keep the special section for physicians intact. They often use their mealtime to discuss patient-related information, and this would be impossible in a public setting.

Offer Visitor Assistance

Volunteer staffing to assist visitors in the cafeteria is not available, but until the completion of the new facilities, which will be much more accommodating to those with limited mobility or anyone unfamiliar with the cafeteria, the food services employees have been asked to be particularly attentive to such persons. Nutrition and Dietetics is reviewing signs for improvements.

Additional Coffee Area/ Express Cashier

They're both great ideas, but again, current space restraints prevent trying to implement them. The layout of the new facility should eliminate the need for either. Nevertheless, the express cashier idea will be reassessed once the new facility is operational.

Wine for Patients

The idea of wine being offered to adult patients through Nutrition and Dietetics instead of through the pharmacy has been referred to the medical staff's Nutrition Support Committee.

Vending

Unfortunately, lounge space is just too tight to try to create a second vending area in Moffitt or Long. Nutrition and Dietetics is working with ARA Services, the vendor serving ACC, to improve their offerings.

Food Services at CED

See food services section in CED report.

Background music

Carpet and other factors will reduce the noise level in the renovated cafeteria. Once this happens, a pilot program of background music will be considered.

Food Service Evaluations

Plans call for food service surveys to be conducted among employees and other customers twice a year. Also, a key element in the new patient questionnaire is related to food services.

UCSF Medsounds

Volume 2, Number 3 January 31-February 13, 1987

Valentine's Special: Med Center Sweethearts

For most people, having a job has dimensions beyond doing a task and earning money. It's also about learning, growing, meeting people, making contacts, making friends . . . or even falling in love and getting married. This was the case in three of the four vignettes that follow — offered as a sentimental tribute to the Valentine's month.

Love in the Laundry

Vant Tu Mao, who is of Chinese descent, emigrated to San Francisco with her family in the early '80s. In 1985, when she was 18 and a student at Mission High, she obtained a temporary job in our Laundry/Linen Services through a summer work program. After the program ended the laundry was in need of some temporary help, so Mao agreed to come back for three months.

Meanwhile, Zeke Romingquet, a 10-year employee in the laundry who was on vacation during Mao's summer stint, also returned. The two met and Zeke asked her out, but Mao declined. "I didn't know him well enough," she says.

So Zeke took the situation in hand. He convinced supervisor Lula Morris to station them together at the "spreader," a piece of equipment that requires two people to stand side by side, feeding it sheets.

Despite Mao's limited English and Zeke's total lack of Chinese, the two were able to find a common language. In fact, they talked and laughed all day, says Mao, and began having lunch together in a little open-air

Mikkel Aaland

Zeke and Mao Romingquet

space at the top of the stairs that looks out over the forest behind the laundry building.

As you are expecting, Mao eventually consented to going out. Zeke took her to a movie and out on the town, and not long after, he took her to meet his family.

At first there were some cultural differences that stood in the way of her acceptance by Zeke's family. But once they got past that, and the couple became established as an "item," then everyone — family, church members and coworkers — began prodding about a wedding date. Supervisor Lula, as a matter of fact, thought it would be nice if they got married on her birthday.

It turned out they surprised everybody. One weekend last spring, Van Tu Mao and Zeke Romingquet stole off to Reno and came back as Mao and Zeke Romingquet. As soon as their colleagues in the laundry recovered from the surprise, they quickly rose to the occasion and threw a big party to celebrate the happy ending to this story.

Match Made on 11 Moffitt

Michael and Jackie (Sherrow) Moore met as staff nurses on 11 Moffitt about five years ago, got to know one another, became great friends, and remained that way a good two years before romance actually entered the picture.

Mikkel Aaland

Jackie and Michael Moore

Even at that point, says Michael, they were mutually wondering about the issue of getting involved with someone at the workplace — and they weren't exactly anxious to advertise their relationship to their colleagues.

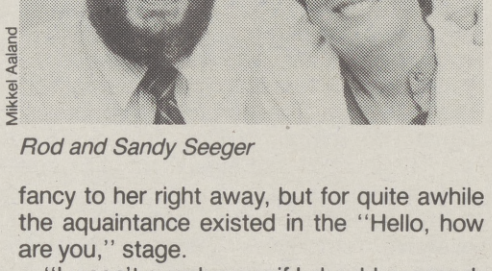
"One of the first times we went out," says Michael, "we went to the Pacific Cafe. We were barely in the door when we realized that half of UC was there having dinner." Thus was their inauguration as an official couple. They married in June, 1986, and spent a blissful honeymoon in Tahiti.

Things are never as simple as they sound. During the interim from the time of their courtship until the present, Jackie completed her MS in oncology as a clinical nurse specialist, proceeded into research, then accepted the position of head nurse of the dermatology clinic shortly before the wedding; they bought a house in Mill Valley, they're fixing it up, they're expecting a baby this spring, they're working full time, and Michael is presently completing his MS is nursing administration.

What is their comment about married life? "We love our stress," says Michael.

Match Made in Heaven

Chaplain Rod Seeger says he first met the former Sandy McAllister when she was head nurse of 9 Moffitt, circa 1978. He took a



Mikkel Aaland

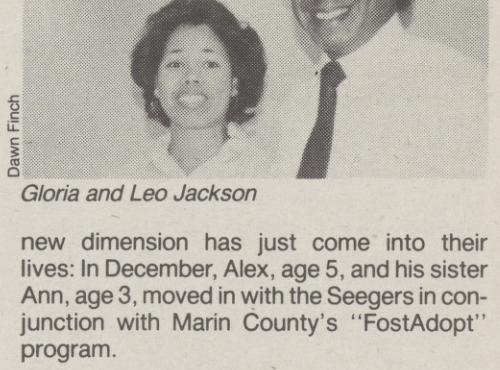
Rod and Sandy Seeger

fancy to her right away, but for quite awhile the aquaintance existed in the "Hello, how are you," stage.

"I wasn't sure how or if I should approach her about getting together outside of work," he says. "I didn't know if she was married or already in a relationship or what."

Then one evening they ran into one another on the elevator. Rod was on his way to his office and Sandy was on her way home. After exchanging their normal friendly conversation, Rod got off, and got as far as his office door when the impulse struck to go back and find her. He did find her, in the Moffitt lobby, down on her hands and knees scooping up the contents of her purse. Someone had bumped into her and knocked her purse out of her hands. Rod took the opportunity not only to offer his sympathy, but to put out the idea of their getting together sometime.

A condensed version of the events that followed is that when Rod actually called her for that date, in the fall of 1978, she accepted. In May of 1980 they got married. Almost seven years later, they're still working under the same roof — Rod, of course, still as chaplain, and Sandy, now as head nurse in radiation oncology. On the home front, an important



Dawn Finch

Gloria and Leo Jackson

new dimension has just come into their lives: In December, Alex, age 5, and his sister Ann, age 3, moved in with the Seegers in conjunction with Marin County's "FostAdopt" program.

Footnote: It was Rod who performed the marriage ceremony for Michael and Jackie.

CED Sweethearts

Gloria and Leo Jackson did not meet at the Med Center — Gloria started here 20 years ago, they were married 17 years ago, and Leo came to work here two years later. For the past 15 years, the couple has worked together — harmoniously — in the same department, Patient Accounts. Gloria is a supervisor and Leo is an administrative analyst, currently working full time on the CHARMS project.

Ask either one and they'll say the situation has never caused a problem, either for their marriage or their work. Pressed for some secrets to their success, Gloria says it is true that they leave the topic of work at work and home at home. Furthermore, they function in quite different capacities at work. And probably most important, neither one has ever been in the position of being boss to the other one.

Any special advantages? Well, they do get to have lunch together every once in a great while, when they can wind their schedules around. And there is the advantage, says Leo, of always knowing where the other one is. Not that it's a concern, he says. On the other hand, it never had to be.

Rub a Dub Dub, Three Nurses in a Tub (or) Moffitt 11 East Reopens

Mikkel Aaland

The setting for this photo happens to be the tub room, constructed as a part of the newly completed 11 East renovation. The nurses in the tub are 11 Moffitt staff members (left to right) Nancy Bauerle, Della Dash and Nora Vittoria. In the foreground are four central figures in the renovation project, (left to right) architect Verna Hodges, 11 Moffitt head nurse Elaine McKenna, and project managers Tim Mahaney and Kirby Maples from Building Management.

The reopening of 11 East is especially significant because it marks the first of the Moffitt units to be completed — in a master plan that eventually will include the renovation of all the Moffitt nursing units. 11 East — the dermatology wing of 11 Moffitt — has the same 10-bed allotment, but most of the patient rooms are now private, the decor is fresh and new, and the tub room — a special feature for dermatology patients — is several times the size of the original tub room.

United Way Results Look Good

Here's a nice opportunity to shake hands with your neighbor: There were 881 Med Center participants in the 1986 United Way Campaign. That's 32.1% of our population and a 7.3% increase over 1985. And get this: The increase in dollars contributed was 52% — from $27,565 in 1985 to $41,881 in 1986!

In terms of the whole campus, the overall level of participation increased from 30.7% to almost 33%, and dollars contributed from $148,000 to almost $177,000. In case you missed the item in last issue of *Newsbreak*, here's a partial reprint of Chancellor Krevan's quote: "I am particularly gratified to see that several units have greatly improved their participation — most notably, the Medical Center and the School of Pharmacy."

If at this point you're wondering how the United Way raffle prize winners are enjoying their prizes, 50-plus quick phone calls produced the following information:

A number of winners have already collected. For instance, Cliff De Magri from Radiation Oncology just spent a wonderful Sunday sailing around the Bay (a 7-1/2 hour ride complete with picnic lunch), compliments of skipper Karen Akerson; Pat Dean from Materiel Services and her sister had a fine time going to see "Cats," thanks to Toby Herfindal; and the winner of Susan Semonoff's pineapple upside cake, Karen Tao, recently shared her prize with a number of appreciative colleagues in the ICN.

Some winners haven't collected yet, but they're all set to go. Doug Shaw of Biomedical Equipment Management (you can call it "Biomed"), for instance, has February 20 marked on his calendar. That's when he's going to go partake of Tony Wagner's gourmet home-cooked dinner. Glenn Hubbard of Materiel Services has saved Saturday, February 7, for Bill Kerr. And forget the baby sitting Bill offered as an option. She and her supervisor Dave Robinson are taking the dinner.

Some winners have run into some minor complications as far as collecting their prizes. At about the same time that Bruce Callerman from ER won four hours of gardening help from Leonard Andruski, Bruce's landlord sold his building, and he had to move. He's now hunting for a house with a yard. And Ray Johnson of Nutrition and Dietetics says he's having a hard time figuring out when the family car will not be in use, so that Marcellus Martin and Al Naklowycz can give it the wash and wax they owe him.

And finally, some winners say they have lost touch with the prize givers — and won't they please look them up and deliver their prizes?

Last Call for "Entertainment '87"

If you've been considering buying an "Entertainment '87" book from the Auxiliary, here's your last reminder on the subject. These books — which cost $30 and contain hundreds of dollars worth of discount coupons for restaurants and entertainment opportunities — will be on sale through February only. Joyce in the Auxiliary office suggests buying one for your sweetheart for Valentine's Day and then have your sweetheart take you out to dinner to one of the places in the book. Call x64906.
